Managing Business Responses to Environmental Challenges **Level 2**

Making business sense of environmental management,
carbon foot printing and net zero

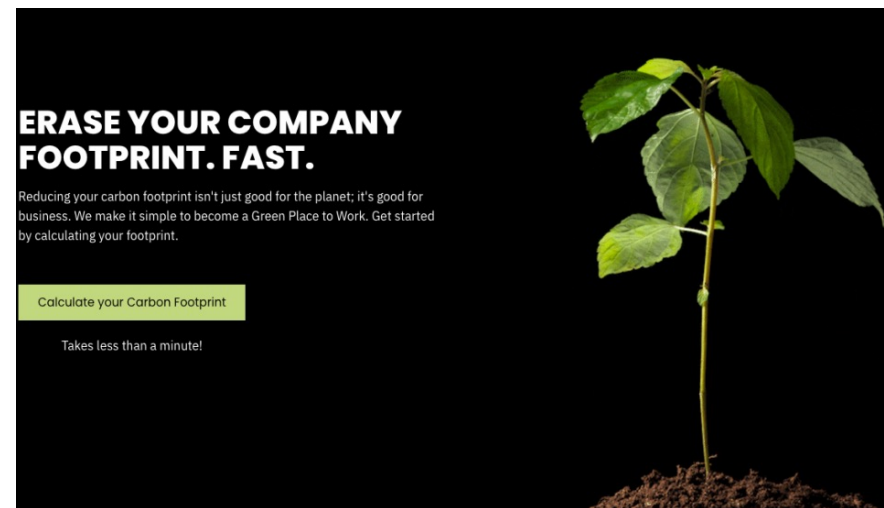

sustainability@lmc.ac.uk • 01524 521294

Why is it important?

- Lots of confusing messaging, jargon & noise
- Commercial interests are seeking to exploit this
- This training seeks to embed the key principles for a robust and effective strategic approach to net zero that will withstand public scrutiny in the long term

Level 1 Award **Environmental**

Responsibility in the Workplace

Explore how you can impact on the environmental
and carbon issues within the workplace

sustainability@lmc.ac.uk • 01524 521294

Why is it important?

Ambitious targets and bold policies & strategies are being set by many businesses.

These can only be delivered through aware, engaged and equipped employees.

This training seeks to equip employees to effectively engage in low carbon initiatives.
