# Need help to support an employee's health?

Department for Work and Pensions working with  
Department of Health and Social Care

03/24

## Struggling with a cost barrier? Don't know where to find help?

### Get a workplace health assessment to support an employee's health and disability

Are you a small or medium employer (SME) in **Cumbria** or **Lancashire**?

Do you need support to manage an employee's health or disability?

### You may be eligible for financial support

DWP and DHSC are trialling a scheme to offer SME's financial support and help finding an occupational health provider.

The service aims to help SMEs with the costs of workplace health assessments for their employees.

### Benefits to your business

Assessments help you understand how to support your employee's health at work. This could help save you money in the future by:

- reducing absences
- increasing productivity.

### Benefits to an employee

An assessment can help an employee:

- return to work
- get expert advice
- get support they might need.

It takes less than 60 seconds to register your interest to get this support, by completing [this form](#) or scanning the QR code.
